Coverage End Date

Once approved, you can continue your coverage to age 70, as long as you become a dues paying member to maintain your no cost coverage after the first year of coverage and you decide to continue your coverage on a premium paying basis after two years, the group policy remains in force, and you do not enter active duty in the Armed Forces.

Exclusions

Benefits are not payable during the 90-day Waiting Period. This policy does not provide benefits for disabilities due or related to routine pregnancy (complications of pregnancy are covered); or declared or undeclared war or any act thereof; or specific conditions for which an impairment restriction has been placed on your coverage. This policy does not provide benefits for any disability that occurs during or is due or related to intentionally self-inflicted injury while sane or insane; or incarceration or participation in a crime or illegal activity.

No benefits are payable for any period during which you are incarcerated. Also, to be considered disabled, the disability must occur while you are insured under the policy and you must be under the regular care of a licensed physician other than yourself or immediate family/household member during the period of disability. A Preexisting Condition is an injury or sickness or condition for which you have consulted a doctor, received medical services or supplies or have taken any medication during the 12 month period immediately before your coverage became effective.

For Missouri residents only: the exclusion for intentionally self-inflicted injury is not applicable to injuries caused by an attempted suicide while sane.
